SUMMARY

Enthusiastic and driven B.Tech Third-year student specializing in Artificial Intelligence and Machine Learning at GITAM Hyderabad, with hands-on internship experience in the Software Development Life Cycle (SDLC). I have developed strong skills in teamwork and problem-solving, and I am known as a quick learner with excellent communication skills. My passion lies in creating innovative, technology-driven solutions.

In addition to my internship experience, I have actively engaged in volunteer roles that have further improved my skills in coding, content creation, and teamwork. These experiences have provided me with a unique perspective and a strong commitment to innovation. I am eager to contribute my skills to your esteemed organization and collaborate on impactful projects that advance technology.

EXPERIENCE

Computer Science Engineering Intern, Chidhagni Group, Hyderabad, India

May 2026 — Current

Learning Spring Boot and React with a focus on backend integration with the frontend. AI automation through n8n for LinkedIn message automation.

Contributor, GSSoC '26, Remote

May 2026 — Current

Contributing to open-source projects and enhancing my knowledge.

Learner, HackOps Bootcamp , Remote

May 2026 — Jun 2026

Cybersecurity training through Hack The Box and TryHackMe has greatly enhanced my understanding of the field, providing a comprehensive overview of various disciplines. I have improved my knowledge through hands-on tasks and practice.

Computer Science Engineering Intern, Chidhagni Group, Hyderabad, India

May 2025 — Jun 2025

- This internship centered on continuous learning in frontend development with React JS and involved participation in live projects.

LANGUAGES

- Telugu
- English
- Hindi
- French

- Tested the Houzer application, which facilitates connections between service providers and communities.
- Designed the user interface (UI) pages for the Donation Receipt and Pure Heart applications, including the implementation of various features and functionalities.
- Developed and evaluated UI pages for the Applicant Tracking System (ATS), enhancing the user experience for both job applicants and employers.

Volunteer, TCD, Hyderabad, Telangana

Dec 2024 — Apr 2025

Detailed reports and effective posters were created for computer science events, showcasing content creation skills. Participation in these events led to a deeper understanding of new technologies and their applications, broadening knowledge of the field.

Content Writer, CYSEC CLUB GITAM, Hyderabad, Telangana

Aug 2024 — Mar 2025

Compelling content was created for a cybersecurity knowledge series, delivering informative posts that captured audience interest. Innovative ideas emerged from brainstorming sessions, supporting event management and promoting cybersecurity best practices.
