PRAVALIKA POLOJU

DETAILS

ppoloju@student.gitam.edu
Hyderabad, India, 500049
+91 8977635221

SKILLS

Programming & Web

- Python (basic), C (basic)
- HTML, CSS, JavaScript, TypeScript
- React.js, Next.js, Tailwind CSS
- Responsive web design

Backend & Data

- Spring Boot, REST APIs, Swagger (OpenAPI)
- PostgreSQL, database integration
- CRUD operations, JSON

Tools & AI

- Git, GitHub, Docker
- n8n workflow automation
- AI-assisted development (Cursor, Kiro, Antigravity)

Security & IT

- Cybersecurity fundamentals, network security
- Linux, computer networking
- Technical support, system administration

Other

- Software Development Life Cycle (SDLC)
- Canva, Excel, Google Slides

SUMMARY

I'm a third-year B.Tech student in Computer Science (AI & ML) at GITAM Hyderabad, and I love turning ideas into working software. Whether it is AI tools, full-stack apps or cybersecurity labs, I learn best by building, breaking and fixing things. With international exposure and a team-first mindset, I adapt quickly and enjoy collaborating on problems that matter. I'm looking for opportunities to contribute, learn from great teams and keep growing as an engineer.

EXPERIENCE

Campus Ambassador, Campus Cartel
Oct 2026 — Current
Represent Campus Cartel as a campus ambassador.

Computer Science Engineering Intern, Chidhagni Group, Hyderabad
May 2026 — Jul 2026
Learned Spring Boot and React, focusing on connecting the backend with the frontend.

- Built a Training Management Portal with complete CRUD operations and API integration.
- Built n8n workflows for LinkedIn messaging, network catch-up and Outlook-to-Excel automation.

Contributor, GSSoC '26, Remote
May 2026 — Jul 2026
Contributed to open-source projects under GirlScript Summer of Code 2026, including the 100 Days 100 Web Project repository.

Computer Science Engineering Intern, Chidhagni Group, Hyderabad
May 2025 — Jun 2025
Learned frontend development with React JS and took part in live projects.

- Tested the Houzer application, which connects service providers and communities.
- Designed UI pages for the Donation Receipt and Pure Heart applications.
- Developed and evaluated UI pages for an Applicant Tracking System (ATS) for job applicants and employers.

Volunteer, TCD, GITAM, Hyderabad
Dec 2024 — Apr 2025
Created detailed reports and posters for computer science events, and learned about new technologies through participation.

Content Writer, CYSEC Club GITAM, Hyderabad
Aug 2024 — Mar 2025
Wrote posts for a cybersecurity knowledge series and contributed ideas in brainstorming sessions to support event management and promote cybersecurity best practices.

PROJECTS

SIF Precursor Detection
Smart India Hackathon · Python, NLP

- AI/NLP engine that detects Serious Injury & Fatality (SIF) precursors in unsafe-act, near-miss and incident reports.
- Includes automated Life-Saving Rule classification.

ResQNET – Offline Emergency Mesh Network
iQOO Hackathon (submitted) · TypeScript

- Offline-first AI emergency mesh network with three modes: Normal, Emergency and Disaster.
- Device-to-device SOS relay, on-device AI detection and encrypted profiles.

LANGUAGES

- Telugu
- English
- Hindi
- French

EDUCATION

GITAM (Deemed to be University)
B.Tech, CSE (AI & ML), Hyderabad
Jul 2024 – Apr 2028
CGPA: 9.33

FIITJEE
Intermediate (MPC), Board of Secondary Education
Jun 2022 – Apr 2024
97.4%

Pragathi Central School
CBSE, Hyderabad
Jun 2012 – May 2022
92%
Activities: Basketball

CERTIFICATIONS

- AI Skills Fest 2026 – Microsoft (Jun 2026)
- React Basics – Meta (Jul 2025)
- Python Basics – University of Michigan (May 2025)
- Foundations of Cybersecurity – Google (Jan 2025)
- Crash Course on Python – Google (Sep 2024)
- Google IT Support Professional Certificate, 5 courses (2024): Technical Support Fundamentals; Bits and Bytes of Computer Networking; Operating Systems and You; System Administration and IT Infrastructure Services; IT Security
- Coursera (Aug 2024): Everyday Excel Part 1; Google Slides presentations; Professional Emails in English; Computers and Office Productivity Software

PROJECTS (CONTINUED)

AI Attention Layer for Alert Management
SignalLabs AI HackDay · Honourable Mention · Team of 2, 9-hour build · Next.js, React, TypeScript, PostgreSQL, Redis, Docker, Supabase, Groq AI
- Turns thousands of raw operational events (alerts, deployments, errors) into the few that need human attention.
- Keeps a deterministic scoring layer separate from the AI layer, so prioritization stays predictable.

Training Management Portal
Chidhagni Group internship, 2026
- Built to demonstrate complete CRUD (create, read, update, delete) operations across the frontend, backend and database, with API integration.

n8n LinkedIn Messaging Automation
Chidhagni Group internship, 2026 · n8n
- Built n8n workflows for LinkedIn message automation and network catch-up message automation.
- Extracted candidate details from Outlook and populated them into Excel.

Expense Tracker
GITAM 3-hour hackathon
- Built an expense tracking application during the hackathon.

AI Study Agent
TNX CODATHON 2026
- Lets users upload syllabus files to generate a study timetable linked with Google Calendar.
- Sends study notes linked with Google Calendar and answers study questions to help with exam preparation.

Jarvis AI Desktop Assistant
Personal project · Python
- AI-powered desktop assistant with voice interaction, laptop automation and productivity features.

Developer Portfolio
Personal project · Next.js, Tailwind CSS, TypeScript
- Full-stack portfolio showcasing projects, certifications, technical skills and GitHub repositories, with live demos and an immersive UI/UX.

100 Days 100 Web Project
GSSoC '26 · HTML, CSS, JavaScript
- Open-source collection of 100+ web projects, from basic to advanced.
- Contributions: UI updates to the N-Queens and Breakout game projects, and the CPU Scheduler Learner.

ACHIEVEMENTS

- Honourable Mention, SignalLabs AI HackDay: Build What Matters, Hyderabad (2026), for the AI Attention Layer project.
- Finalist, HackOps Cybersecurity Bootcamp 2.0, GITAM (Jul 2026): ethical hacking, networking, Linux and digital forensics labs on TryHackMe and Hack The Box.
- Shortlisted for the final round of TNX CODATHON 2026 (TechNeekX) as part of Team Git Gud.
